

Gujarat-Kutch-Rajasthan Textiles and Tribal Cultures with ancient Kite Festival

January 12-28, 2020

"There are some parts of the world that, once visited, get into your heart and won't let go. India is such a place....I had been seeing the world in black & white and, when brought face-to-face with India, experienced everything re-rendered in brilliant technicolour." - Keith Bellows, National Geographic Society

Accolades rolling in for our 2019's tour . . .

*“Sitting in the airport after just completing the 17-day North India textile tour encompassing Gujarat for the most part. Notwithstanding a couple of health issues and the shock of poverty, filth and rubbish in India this has been one of the most fulfilling experiences of my life. Our guide Nirav was a font of knowledge and bent over backwards to make sure our trip was as stress free and enjoyable as possible - a truly remarkable man that words cannot do justice. We visited villages that tourists rarely go and were welcomed into homes that I am sure would not have been possible if it wasn't for Nirav's friendly and enthusiastic manner with everyone he encountered. So generous to share his knowledge. A particular highlight (amongst hundreds) was his self-tailored outfits to match the artisanal craft we were visiting that day. Shila met up with us in the last week and she too is an amazing woman, very warm and personable. A lovely, lovely woman who is highly knowledgeable about India and its customs and culture. The sights I have seen, the experiences I was honoured to have undertaken will stay with me forever. Just waiting now for a big package to arrive in a few weeks. A word of warning, only a very strong person not interested in textiles will fail to purchase. The quality of the work we saw was exceptional! I would be happy to talk to anyone thinking about doing this tour to share my experiences and reassure them that they would not regret it.
Thank you Shila and Nirav.”*

“What I love about this itinerary

To explore the lands and culture of the Thar Desert is to probe the very warp and weft of India’s existence. The Indus Valley civilization of 2500 B.C., which domesticated cotton and tied the first loom, has given rise to an amazingly rich culture. It is encoded in exquisite textiles and passed on from mother to daughter, father to son. A sensorial and textural delight, this tour affords unparalleled opportunities to partake in the fast-disappearing lifework of these warm and hospitable people. Come meet and create alongside humble masters of the world’s greatest textile arts!
